LANDFILL SITE ASSESSMENT

Facility Name :	Tide Water Landfill LLC	Facility Location ID :	110006808062
Assessment Date :	8/11/2010	Incident Name :	BP Spill
Physical Location :	266 Coast Guard Road		
City, State :	Venice, LA	County :	Plaquemines

ASSESSMENT INFORMATION

General Site Information and Observations	
1. Is the facility currently receiving debris from BP?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A
2. If no, has the facility received debris from BP in the past?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A
3. Which companies are transporting the BP waste?	Heritage
4. How many BP waste loads have been rejected?	1
5. If so, why?	The load contained tires and not approved
Additional Comments : The WASR Team arrived at the Tide Water Landfill at 1130 hours and met with facility representative Chris Wooton (Landfill Manager, Environmental Operators, LLC). Mr. Wooton provided copies of the day's manifests/waste profiles for BP Wastes, as well as a weekly summary of BP wastes accepted by the landfill. During the period 5/19/2010 through 8/8/2010, the landfill has accepted 3,063.8 tons of BP wastes categorized as "IND-Type I-used oil absorbents." This waste category consists primarily of used sorbent pads, as well as some used boom. Mr. Wooton stated that BP wastes are being disposed of in the same landfill cell as municipal wastes. Heritage is delivering BP wastes to the landfill primarily in intermodal containers transported by barge, though rolloff containers are also being used.
